

Details of Distinction

The roofline of a building is what separates the ordinary from the extraordinary. We offer a range of options to enhance the beauty and function of your building.

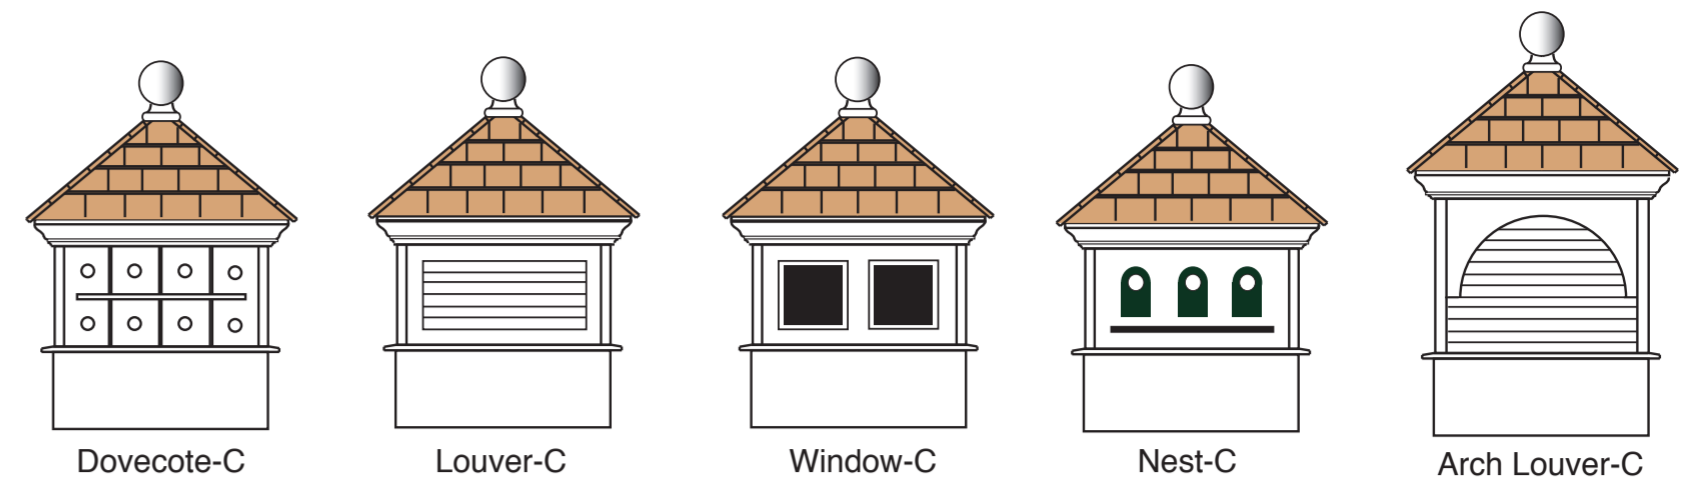

All of our cupolas are designed and crafted in-house to ensure quality control. In addition to our standard offerings we also have custom capabilities. Our cupolas are both functional and aesthetic. Cupolas are vented and open to the building interior and are screened to keep out birds, bees, and bugs. Weathervanes may be used with our cupolas. Let us know at time of order if you will be using a weathervane.

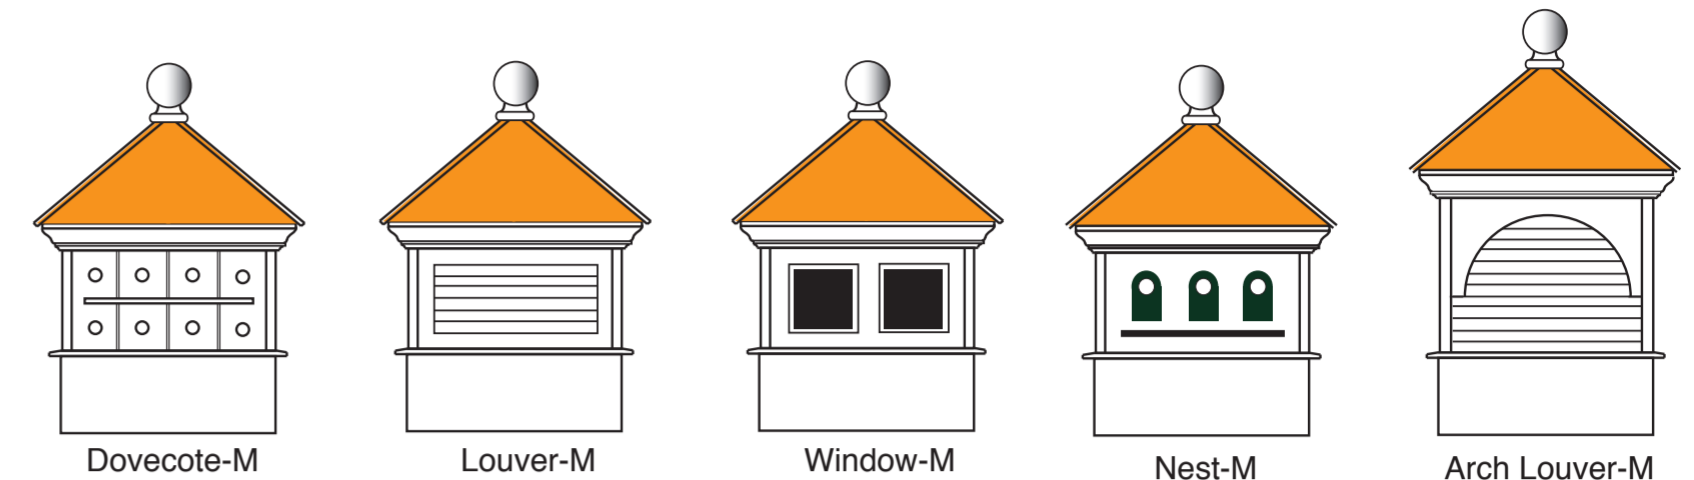

Custom Capabilities

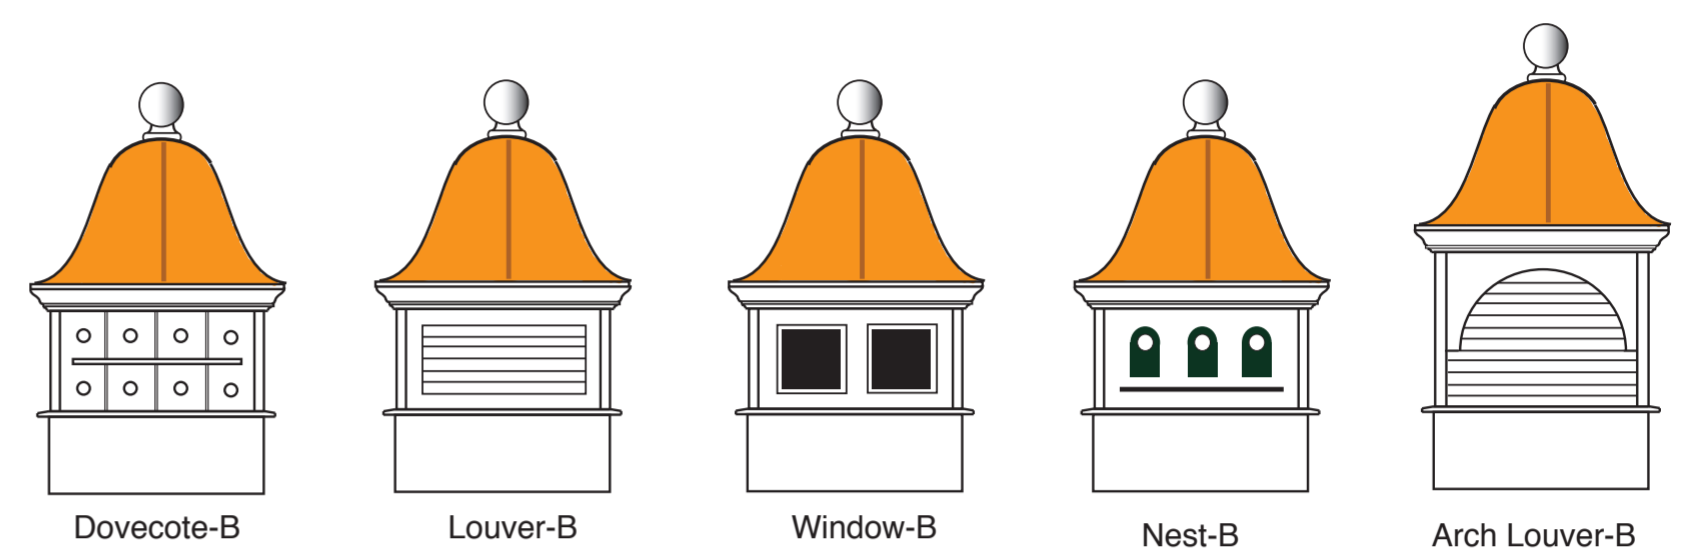

Cupolas

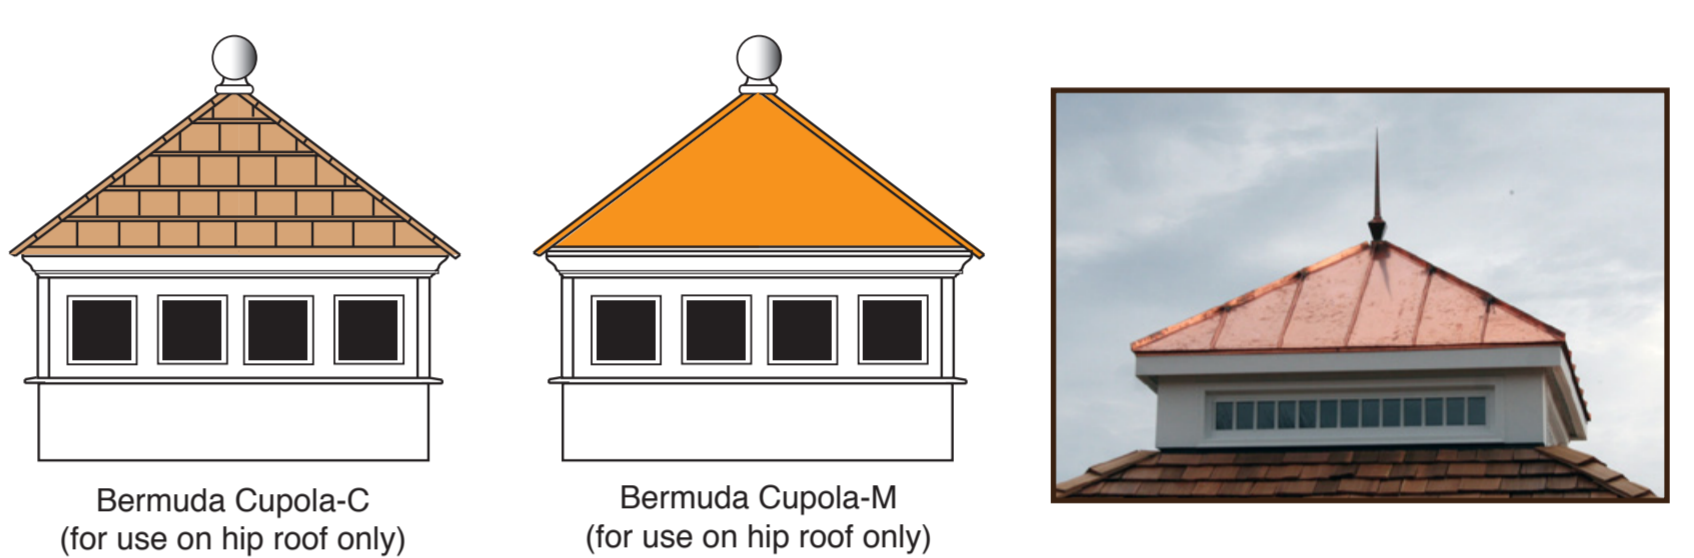

Std. Cupolas—cedar roof

Std. Cupolas—copper roof

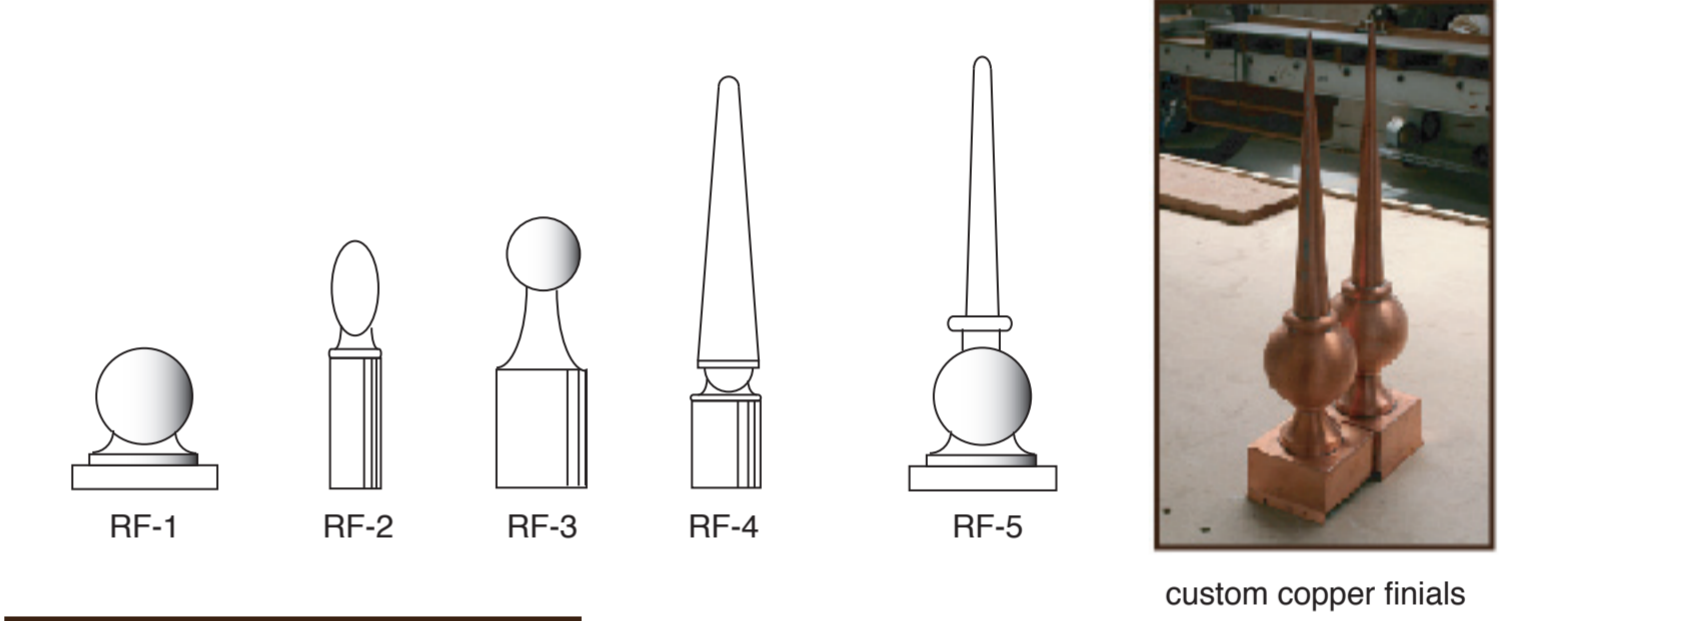

Belle Cupolas—copper roof

Bermuda Cupolas

Roof Finials and Braces

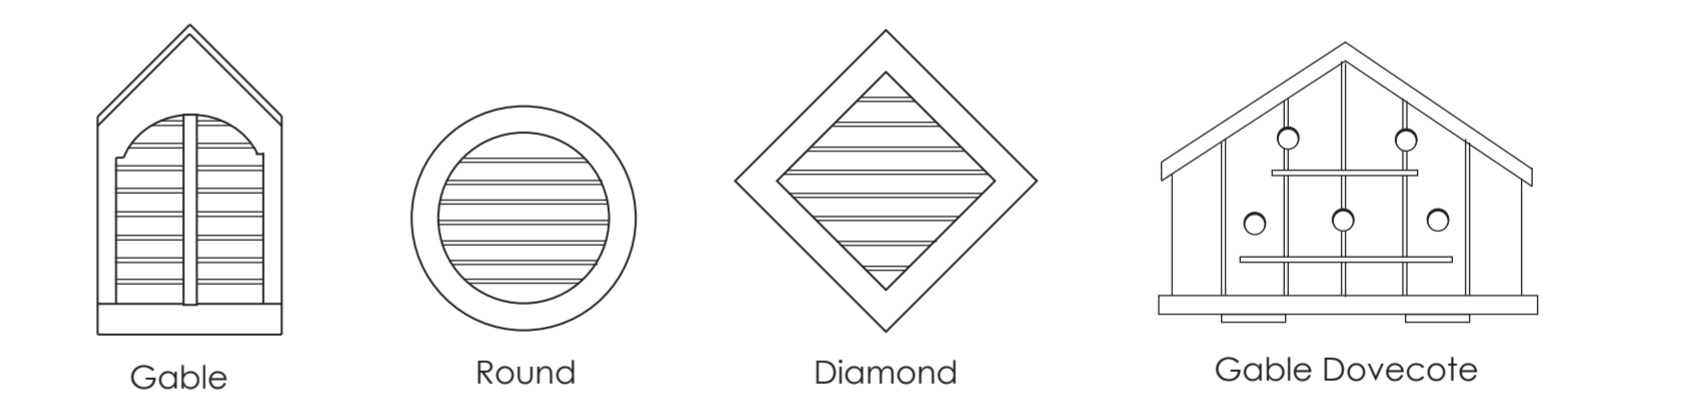

Roof Finials

Roof Brackets and Braces

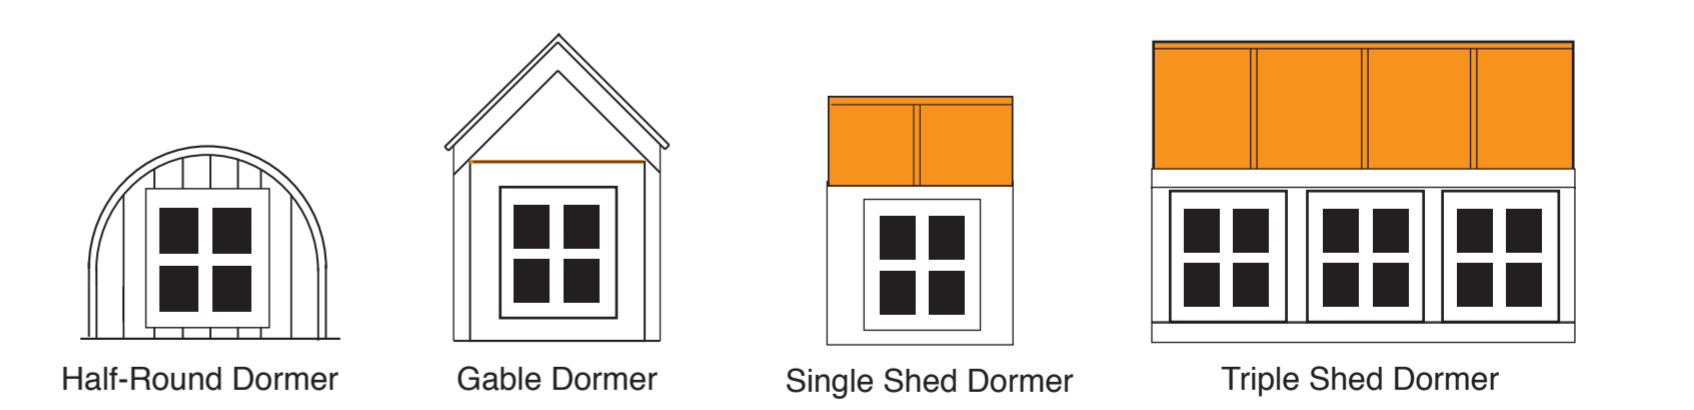

Gable Ventilators

Wall Ventilators

Roof Dormers

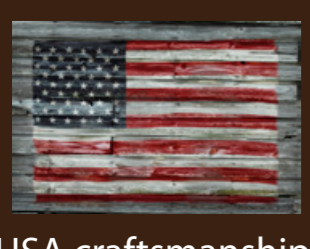

Skylights

Let there be light. Skylights are an ideal way to light up an interior and are especially useful for potting sheds, green houses and studios where natural light is critical.

We offer skylights as single, double and triple units—in either fixed or functional venting models.
